Architect Nili Portugali takes us in her unique poetic meditative cinematic language into an intimate childhood memories journey in the **Kabbala holy Galilee city of Tsefat**. A journey that unfolds gradually from her present **Holistic/Buddhist** Point of View to a discovery of profound universal insights: What is their secret of all those great timeless places in which one feels '**at home**' and what is that 'One pure art of making' that creates them (and the Arts), **at any culture; place and time**. Memories embedded in each stone of that invisible old city and of her grandmother considered by her "**A Zen Master**".

**A film crossing new boundaries - straddling the line between art and cinema**
